February Highlights

Marci's Moment

I enjoy working jigsaw puzzles, especially on cold or rainy days. I put the border together then work on the rest. One advantage is that I'm able to see the whole picture while I'm working on it.

Families facing a decision about assisted living for themselves or a loved one don't always get to see the whole picture at one time. Piecing together the timing, physical needs, social needs, and finances can be challenging, but we are here to help. Taking a tour, sharing a meal with our residents, or coming for an activity is great way to start putting those pieces together to see the whole picture.

Employee Spotlight: Tammy McCaw

Tammy joined our dietary team in December and quickly learned how to prepare our made to order breakfasts and lunches. She enjoys spending time with our residents and now helps with activities each week too. She wears two hats very well and her genuine care and focus on our residents shows each day. We're glad she's part of our team.

THE PINNACLE

MARCH 2025

Community Partner Highlight: First United Bank

Our residents felt the love on Valentine's Day when the staff of First United Bank delivered roses to everyone. It's special to be in a community that values our residents.

Resident Spotlight: Tom

Tom has been an integral part of Madisonville through his career in banking and community service through the city council and multiple civic organizations. His First United Bank family continues to stay connected with him. When asked about this picture he was so happy and said, "they all showed up". Showing up for one another is the simple act of loving our neighbor. Tom is staying active by attending church and Lions Club meetings. We are glad he is part of our community and the new friendships he has made here.
